J.Lynne Cosmetics Brings Natural Warmth To Winter's Chill With Their "Coffee House Collection" Mineral Eye Shadows

*Non-fat, skinny soy lattes have no place in this Coffee House! J.Lynne Cosmetics, an indie beauty company offering all-natural, cruelty-free cosmetics, introduces the **Satin Pearls Mineral Eyeshadow "Coffee House Collection"**, filled with rich, neutral-flavored shades inspired by hot café-concoctions.*

J.Lynne Cosmetics takes the chill out of frosty wintertime makeup trends with the introduction of their Coffee House Collection -- ten beautifully neutral mineral eyeshadow colors that fit and flatter every eye color and skin tone.

"I'm a big coffee house enthusiast," says Jessica Lynne Miller, owner and creator of J.Lynne Cosmetics. "When I first began crafting this collection, which was inspired by our customers' requests for a neutral palette of eye colors, I found myself thinking that *this* shade reminded me of my favorite latté, and *that* shade reminded me of cappuccino. After refining the colors and merging them with a handful of our most sought-after neutral shades, the Coffee House Collection was born!"

J.Lynne Cosmetics Satin Pearls Mineral Eyeshadows are formulated with lush, naturally-occurring minerals and pigments. With their soft, smooth texture and beautifully luminous finish, these colors are as luxurious as satin, with the true luster of a pearl. The **Coffee House Collection** joins J.Lynne's **Japanese Garden Collection** – a stunning palette of twelve soft, colorful hues that were inspired by J.Lynne's Asian customers.

About J.Lynne Cosmetics
